**SCHEDULE 2**

**AMENDMENTS TO SECTION B – RISK FACTORS**

The Risk Factors set out in Section B (*Risk Factors*) of the Base Prospectus on pages 11 to 113 shall be updated as follows:

1. The risk factor entitled "*Occurrence of a Settlement Currency Disruption Event*" in the Section "*Risks relating to the Securities generally*" on page 64 of the Base Prospectus is moved to page 26 before the risk factor entitled "*Occurrence of a RMB Disruption Event*" in the section entitled "*Risks relating to Securities Generally*" and updated to include references to Warrants and Exercisable Certificates as follows:

   "*Occurrence of a Settlement Currency Disruption Event*

   If, in the opinion of the Calculation Agent, payment of any amount due in respect of the Securities cannot be made by the Issuer in the Settlement Currency on any date on which payment is scheduled to be made under the Securities due to the occurrence of a Settlement Currency Disruption Event (being (a) the imposition of restrictions on the transferability, purchase and holding of the Settlement Currency, (b) its non-acceptance by a clearing system or its disuse, (c) its illiquidity in the relevant market or (d) any other circumstances beyond the Issuer's control), then the Issuer shall be entitled to satisfy its obligations to Securityholders by either (i) delaying any such payment until after the Settlement Currency Disruption Event ceases to exist, or (ii) making such payment in United States dollars on, or as soon as reasonably practicable after, the relevant payment date. Any such delayed payment or payment in United States dollars will not constitute a default and Securityholders shall not be entitled to ~~further~~ interest or any other payment in respect of any such delay and this could have a material adverse impact on the rights of Securityholders, the value of and return on the Securities.

   See further General Condition 8(i) (*Settlement Currency Disruption Event*) in respect of Securities which are Notes or Certificates or General Condition 5(i) (*Exercise Rights and Early Termination – Settlement Currency Disruption Event*) in respect of Securities which are Warrants or Exercisable Certificates.".

2. References to the term "Early Redemption Event" in the Section "*Risks relating to the Securities generally*" on pages 11 to 113 of the Base Prospectus and all related cross-references are updated to refer to "Early Termination Event". For the avoidance of doubt, this does not affect references to "Mandatory Early Redemption Event".

3. The risk factor entitled "*Illegality in relation to Securities*" in the Section "*Risks relating to the Securities generally*" on page 26 of the Base Prospectus is updated to reflect that early termination in such circumstances must be specified to be applicable in the applicable Issue Terms, as follows:

   "*Illegality in relation to Securities*

   If "Early Termination for illegality" is specified as applicable in the applicable Issue Terms and the Issuer determines that the performance of its obligations under an issue of Securities or (if applicable) the Guarantor determines that the performance of its obligations under the relevant Deed of Guarantee in respect of such Securities has become illegal in whole or in part for any reason, the Issuer may redeem or terminate the Securities early and, if and to the extent permitted by applicable law, will pay to you, as a holder of such Securities (i) where the early termination amount is determined by reference to the fair market value of the Securities, an amount calculated, notwithstanding such illegality, in accordance with the method specified in the applicable Issue Terms and (ii) otherwise, an amount calculated pursuant to the relevant Condition or as specified in the applicable Issue Terms. The amount repaid to you could be substantially less than your initial investment and you would therefore sustain a loss.

   See further General Condition 6(b)(ii) (*Redemption for Illegality*) in respect of Securities which are Notes or Certificates or General Condition 8 (*Illegality in relation to the Warrants*) in respect of Securities which are Warrants or Certificates.".

4.   The third paragraph of the risk factor entitled "*Disrupted Days, Adjustment Events and Early Termination Events in relation to Securities linked to Commodity Indices*" under the heading "*Risks associated with Securities linked to Commodity Indices*" (as updated as provided above) in the Section "*Risks relating to Securities linked to Underlying(s)*" on pages 36 to 37 of the Base Prospectus is updated to include references to Additional Disruption Events, as follows:

"If the Calculation Agent determines that an Adjustment Event occurs in respect of any Commodity Index (being, in each case if applicable, (a) the occurrence at any time of a change in law affecting any underlying hedging position in relation to the Securities (such that holding, acquiring or disposing of any hedging position becomes or will become unlawful, illegal or otherwise prohibited) or materially increasing the Issuer's costs in relation to performing its obligations in respect of the Securities or a Hedging Disruption or an Increased Cost of Hedging, (b) such Commodity Index (i) not being calculated and announced by or on behalf of the relevant index sponsor but instead being calculated and announced by or on behalf of a successor to the relevant index sponsor acceptable to the Calculation Agent or (ii) being replaced by a successor index, (c) the imposition of increased or unexpected fees and costs for the use of such index on the Issuer and/or any of its affiliates by the relevant index sponsor which the Calculation Agent deems material, ~~or~~ (d) the imposition of, change in or removal of any tax relating to any component of such Commodity Index or commodity relating to such component (if specified as applicable in the applicable Issue Terms) which the Calculation Agent deems material or (e) any Additional Disruption Event specified in the applicable Issue Terms), then the Calculation Agent shall make such adjustment(s) to the terms of the Securities as the Calculation Agent determines necessary to account for the effect of such Adjustment Event or the Calculation Agent may replace the Commodity Index that is the subject of the Adjustment Event with a new Commodity Index using, in the determination of the Calculation Agent, the same or a substantially similar formula and method of calculation as used in the calculation of the level of such Commodity Index or, in the case of Exempt Securities, a Commodity Index selected by reference to such other criteria as specified in the applicable Pricing Supplement. Any such adjustment may include, in the case of an Increased Cost of Hedging, adjustments to pass on to Securityholders any such Increased Cost of Hedging (including, but not limited to, reducing any amounts payable or deliverable in respect of the Securities to reflect any such increased costs). Any such adjustments may have an adverse effect on the value of such Securities and, if the Calculation Agent determines that no adjustment can reasonably so be made, such Adjustment Event shall be an Early Redemption Event.".

5.   The third paragraph of the risk factor entitled "*Disrupted Days, Adjustment Events and Early Termination Events in relation to Securities linked to Bespoke Indices*" (as updated as provided above) under the heading "*Risks associated with Securities linked to Bespoke Indices*" in the Section "*Risks relating to Securities linked to Underlying(s)*" on pages 48 to 49 of the Base Prospectus is updated to include references to Additional Disruption Events, as follows:

"If the Calculation Agent determines that an Adjustment Event occurs in respect of any Bespoke Index (being, in each case if applicable, (a) the occurrence at any time of a change in law affecting any underlying hedging position in relation to the relevant Securities (such that holding, acquiring or disposing of any hedging position becomes or will become unlawful, illegal or otherwise prohibited) or materially increasing the Issuer's costs in relation to performing its obligations in respect of the relevant Securities or a Hedging Disruption or an Increased Cost of Hedging, (b) such Bespoke Index (i) not being calculated and announced by or on behalf of the relevant index sponsor but instead being calculated and announced by or on behalf of a successor to the relevant index sponsor acceptable to the Calculation Agent or (ii) being replaced by a successor index, ~~or~~ (c) the imposition of, change in or removal of any tax relating to any index component of such Bespoke Index or other asset relating to such index component (if specified as applicable in the applicable Issue Terms) or (d) any Additional Disruption Event specified in the applicable Issue Terms), then (A) the Calculation Agent shall make such adjustment(s) to the terms of the relevant Securities as the Calculation Agent determines necessary to account for the effect of such Adjustment Event, or (B) the Calculation Agent may replace the Bespoke Index which is the subject of the Adjustment Event with either (1)  a new index using, in the determination of the Calculation Agent, the same or a substantially similar formula and method of calculation as used in the calculation of the level

of such Bespoke Index, or (2) in the case of Exempt Securities only, a replacement index selected by reference to such other criteria as specified in the applicable Pricing Supplement. Any such adjustment may include, in the case of an Increased Cost of Hedging, adjustments to pass on to Securityholders any such Increased Cost of Hedging (including, but not limited to, reducing any amounts payable or deliverable in respect of the Securities to reflect any such increased costs). Any such adjustments or substitution may have an adverse effect on the value of such Securities and, if the Calculation Agent determines that no adjustment can reasonably so be made, such Adjustment Event shall be an Early Redemption Event.".

6.  The risk factor entitled "*In respect of Securities which are Notes or Certificates, if a floating rate becomes unavailable it may be determined in the Relevant Agent's discretion or by alternative methods*" in the Section "*Risks associated with Securities linked to Rates and Benchmark Reform*" on pages 55 to 56 of the Base Prospectus is updated to include references to TONIA by inserting the following paragraph prior to the final paragraph of such section:

    "If the relevant rate is unavailable or if TONIA ceases to exist and the TONIA (Non-Index) Fallback Provisions in Valuation and Settlement Condition 4.2(g)(iii) of the Terms and Conditions of the Notes and Certificates apply, the amount of interest payable on such Securities will be determined by the Relevant Agent in its sole discretion. If the alternative provisions for determining the TONIA rate in respect of a particular day become applicable, this could result in adverse consequences to the amount of interest payable on the Securities, which could adversely affect the return on, value of and market for the Securities.

    If the relevant TONIA Index value is unavailable and the TONIA (Index) Fallback Provisions in Valuation and Settlement Condition 4.2(g)(iii) of the Terms and Conditions of the Notes and Certificates apply, the relevant rate shall instead be determined in accordance with the Compounded Daily TONIA – Non-Index Determination provisions (in relation to which TONIA OIS Compounding shall apply), in relation to which, see the immediately preceding paragraph.".

7.  The risk factor entitled "*Developing markets for SONIA, SOFR, €STR and SARON and potential impact on performance and returns*" under the heading "*The regulation and reform of "benchmarks" may adversely affect the value of and return on Securities linked to or referencing such "benchmarks"*" in the Section "*Risks associated with Securities linked to Rates and Benchmark Reform*" on pages 58 to 59 of the Base Prospectus and all related cross-references are updated to include references to TONIA, as follows:

    "*Developing markets for SONIA, SOFR, €STR, and SARON and TONIA and potential impact on performance and returns*

    The market continues to develop in relation to adoption of SONIA, SOFR, €STR, and SARON and TONIA as reference rates in the capital markets for sterling, U.S. dollar, euro, Swiss franc or Kazakhstani Tenge bonds, respectively, and their adoption as alternatives to the relevant interbank offered rates. In addition, market participants and relevant working groups are exploring alternative reference rates based on risk-free rates, including term SONIA, SOFR and €STR reference rates (which seek to measure the market's forward expectation of an average SONIA rate, SOFR or €STR over a designated term).

    The market or a significant part thereof may adopt an application of risk-free rates that differs significantly from that set out in the Conditions and used in relation to Securities that reference such risk-free rates issued under this Base Prospectus. Term SONIA reference rates (which seek to measure the market's forward expectation of an average SONIA rate over a designated term) have been published from January 2021 and term SOFR rates have also become available for use. It is possible that market participants may seek to apply such term rates for capital markets issuances, although UK authorities have made clear their preference for the market to adopt a broad-based transition to SONIA compounded in arrears for new transactions, with use of a term SONIA reference rate being more limited.

    The Issuer may in the future also issue Securities referencing SONIA, SOFR, €STR, and SARON, TONIA or other risk-free rates that differ materially in terms of interest determination when

compared with any previous SONIA, SOFR, €STR, or SARON or TONIA or other risk-free rate referenced Securities issued by it under this Base Prospectus.

The development of new risk-free rates could result in reduced liquidity or increased volatility, or could otherwise affect the market price of any Securities that reference a risk-free rate issued under this Base Prospectus from time to time.

The new risk free rates have only a limited trading market, and an established trading market may never develop or may not be very liquid. Market terms for Securities indexed to the new risk free rates may evolve over time, and may lead to impacts on trading prices and values, and such Securities may not be able to be sold or may not be able to be sold at prices that will provide a yield comparable to similar investments that have a developed secondary market, and may consequently suffer from increased pricing volatility and market risk.

Similarly, the manner of adoption or application of risk-free rates in the Eurobond markets may differ materially compared with the application and adoption of risk-free rates in other markets, such as the derivatives and loan markets. You should carefully consider how any mismatch between the adoption of such reference rates in the bond, loan and derivatives markets may impact any hedging or other financial arrangements which you may put in place in connection with any acquisition, holding or disposal of Securities referencing such risk-free rates.".

8. The risk factor entitled "*Risks in connection with "Shift" and "Lag" methodologies*" in the Section "*Risks associated with Securities linked to Rates and Benchmark Reform*" on page 62 of the Base Prospectus is updated to include references to TONIA, as follows:

"Where (a) SONIA Floating Rate Determination, or SOFR Floating Rate Determination or TONIA Floating Rate Determination (in either any such case, other than where Index Determination applies) or (b) €STR Screen Rate Determination or SARON Screen Rate Determination is specified in the applicable Issue Terms as the manner in which the Floating Interest Rate is to be determined, a compounding method will also be specified in the applicable Issue Terms. These compounding methodologies have emerged as conventions for daily compounding of rates in arrears. The conventions differ in the period that each method uses when weighting each business day's overnight rate for the relevant risk free rate. The "Shift" approach (or "Compounding with Observation Period Shift") weights the relevant risk free rate according to the relevant number of days that apply in a separate observation period which 'shadows' the Interest Period (e.g. the observation period might start and end five business days preceding the relevant start and end of the Interest Period). The "Lag" approach (or "OIS Compounding" or "Compounding with Lookback") weights the relevant risk free rate according to the number of days that apply in the relevant Interest Period. Investors should be aware that divergence between the above methodologies could lead to a difference in the interest being determined even where the relevant risk free rate is the same for the Securities and may not be what investors expected.".

9. The risk factor entitled "*Methodologies for determining interest payable in respect of Securities linked to SONIA or SOFR may differ substantially*" in the Section "*Risks associated with Securities linked to Rates and Benchmark Reform*" on page 62 of the Base Prospectus and all related cross-references are updated to include references to TONIA, as follows:

"***Methodologies for determining interest payable in respect of Securities linked to SONIA, or SOFR or TONIA may differ substantially***

The amount of interest payable in respect of Securities linked to SONIA, or SOFR or TONIA will be calculated by reference to (i) the rate of return of a daily compound interest investment (with the daily SONIA, or SOFR or TONIA, as applicable, as the reference rate for the calculation of interest); or (ii) where Index Determination in respect of SONIA Floating Rate Determination, SOFR Floating Rate Determination or TONIA Floating Rate Determination applies, a screen rate, formula or value as may be published by the administrator of SONIA, or SOFR or TONIA, as applicable. There can be no assurance that amounts of interest determined pursuant to (i) and (ii) will be similar, and over time the market may adopt an application of these methodologies that differs significantly from that set out in the Conditions. Further, investors should refer to

"*Developing markets for SONIA, SOFR, and €STR, SARON and TONIA and potential impact on performance and returns*" above for a description of the key risks relating to the development of risk free rates across the market generally.".

10. The risk factor entitled "*Obligor Regulatory Event*" in the Section "*Risks associated with Notes and Certificates and certain types of Security and product feature*" on page 63 of the Base Prospectus is updated to correct the first line thereof, as follows:

"**Obligor Regulatory Event**

If "Early Termination for Obligor Regulatory Event" is specified as applicable in the applicable Issue Terms and an Obligor Regulatory Event occurs (being, in summary, a change in law after the Trade Date which results in the Issuer and/or the Guarantor (i) becoming subject to less favourable capital adequacy treatment, (ii) suffering any increased costs in connection with the Securities, including any costs associated with hedging the Securities or costs in maintaining any applicable capital reserves in respect of the Securities or (iii) being materially restricted from performing any of its obligations under the Securities and/or the relevant Deed of Guarantee, as applicable), the relevant Securities may be redeemed as more fully set out in the terms and conditions of such Securities.

If the Securities are so redeemed early, the Issuer will pay to you, as a holder of such Securities, an amount calculated in accordance with the method specified in the applicable Issue Terms or such other amount as is specified in the applicable Issue Terms. The amount repaid to you could be substantially less than your initial investment and you would therefore sustain a loss.

See further General Condition 6(c) (*Early Termination following the occurrence of an Obligor Regulatory Event*).".

11. The Section "*Risks associated with Notes and Certificates and certain types of Security and product feature*" is updated to include a new paragraph relating to the risks in respect of Inverse Floating Rate Securities before the risk factor entitled "*Securities subject to a cap*" on page 67 of the Base Prospectus, as follows:

"**Risks relating to Inverse Floating Rate Securities**

Inverse Floating Rate Securities have an interest rate equal to a fixed rate minus a specified reference rate (which may be a rate determined by reference to the Floating Rate Securities provisions, the CMS Interest Linked Securities provisions or the Spread Securities provisions as specified in the applicable Issue Terms). The market values of those Securities typically are more volatile than market values of other conventional floating rate debt securities based on the same reference rate (and with otherwise comparable terms). Inverse Floating Rate Securities are more volatile because an increase in the reference rate not only decreases the interest rate of the Securities, but may also reflect an increase in prevailing interest rates, which further adversely affects the market value of these Securities.".

12. The Sections "*Risks specific to Credit Linked Notes*", "*Risks specified to Index Skew Notes*", "*Description of the Return on the Securities*" and "*Taxation of Securities*" are updated by amending all references to "Noteholders" to refer to "Securityholders".

**SCHEDULE 3**

**AMENDMENTS TO SECTION C – INVESTMENT CONSIDERATIONS**

Section G.2 (*Issue of Securities*) on pages 226 to 227 of the Base Prospectus is updated as follows

Section C (*Investment Considerations*) on pages 114 to 134 of the Base Prospectus is updated as follows:

The section entitled "*SONIA Floating Rate Determination, SOFR Floating Rate Determination, €STR Floating Rate Determination and SARON Floating Rate Determination in respect of Securities which are Notes or Certificates:*" under the heading "*Application of Fallback Provisions in respect of Reference Rates and Benchmarks*" on pages 119 to 120 of the Base Prospectus is updated to include references to TONIA, as follows:

"SONIA Floating Rate Determination, SOFR Floating Rate Determination, €STR Floating Rate Determination, and SARON Floating Rate Determination and TONIA Floating Rate Determination in respect of Securities which are Notes or Certificates:

- If a floating rate cannot be determined and SONIA Floating Rate Determination and/or SOFR Floating Rate Determination and/or €STR Floating Rate Determination and/or SARON Floating Rate Determination and/or TONIA Floating Rate Determination are specified in the applicable Issue Terms, provided that none of the Reference Rate Event Provisions, the Administrator/Benchmark Event provisions and the Rate Conditions apply to the relevant floating rate as a result of the relevant event or circumstance, the relevant provisions of Valuation and Settlement Condition 4.2(c)(iii), Valuation and Settlement Condition 4.2(d)(iii) or Valuation and Settlement Condition 4.2(e)(ii) or Valuation and Settlement Condition 4.2(f)(ii) or Valuation and Settlement Condition 4.2(g)(iii) (as the case may be) shall apply as described below.

- Where SONIA Floating Rate Determination is applicable (other than where Index Determination applies), if the Relevant Agent determines that the SONIA rate is not available on the relevant Page or has not otherwise been published by the relevant authorised distributors on a relevant day, the Calculation Agent will determine such SONIA rate as being:

    (a)    (i) the Bank of England's Bank Rate (the "**Bank Rate**") prevailing at close of business on such day in the relevant Observation Period; plus (ii) the mean of the spread of the SONIA rate to the Bank Rate over the previous five days on which a SONIA rate has been published, excluding the highest spread (or, if there is more than one highest spread, one only of those spreads) and the lowest spread (or, if there is more than one lowest spread, one only of those spreads) to the Bank Rate; or

    (b)    if the Bank Rate is not published by the Bank of England at close of business on such day in the relevant Observation Period, the SONIA rate published on the relevant Page (or otherwise published by the relevant authorised distributors) for the first preceding London Banking Day on which the SONIA rate was published on such Page (or otherwise published by the relevant authorised distributors).

    Notwithstanding the foregoing, in the event the Bank of England publishes guidance as to (A) how the SONIA rate is to be determined or (B) any rate that is to replace the SONIA rate, the Calculation Agent shall, to the extent that it is reasonably practicable, follow such guidance in order to determine the SONIA rate for the purpose of the Securities for so long as the SONIA rate is not available or has not been published by the authorised distributors. For related risks, see "*If a floating rate becomes unavailable it may be determined in the Relevant Agent's discretion or by alternative methods*" above.

As such, amounts due or assets deliverable where such provisions apply are not directly linked to the performance of any one Underlying and the positive performance of some Underlying(s) may be negated by the negative performance of other Underlying(s) in either or both baskets, particularly where the weighting attributed to those Underlying(s) having a negative performance is greater than that attributed to those Underlying(s) having a positive performance. There can be no guarantee that the weighting profile of either basket will emphasise the positive performance of any Underlying."

For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); or (ii) a customer within the meaning of Directive (EU) 2016/97 (the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (as amended, the "**EU Prospectus Regulation**"). Accordingly and subject as provided above, any person making or intending to make an offer in that Member State of the [Warrants/Exercisable Certificates] may only do so in circumstances in which no obligation arises for the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the EU Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the EU Prospectus Regulation, in each case, in relation to such offer. **FORM OF PRICING SUPPLEMENT – WARRANTS AND EXERCISABLE CERTIFICATES**

*The Pricing Supplement relating to each issue of Warrants/Exercisable Certificates may contain (without limitation) such of the following information as is applicable in respect of such Warrants/Exercisable Certificates.*

[**PROHIBITION OF SALES TO EEA RETAIL INVESTORS** – [Other than with respect to offers of the [Warrants/Exercisable Certificates] in [specify jurisdiction(s)] for which an EU PRIIPs KID is being prepared] [during the period[s] [●]-[●] (repeat periods as necessary), [T]/[t]The [Warrants/Exercisable Certificates] are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended or superseded, "**MiFID II**"); or (ii) a customer within the meaning of Directive (EU) 2016/97 (the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in Regulation (EU) 2017/1129 (as amended, the "**EU Prospectus Regulation**"). Consequently[, save as provided above,] no key information document required by Regulation (EU) No 1286/2014 (as amended, the "**EU PRIIPs Regulation**") for offering or selling the [Warrants/Exercisable Certificates] or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the [Warrants/Exercisable Certificates] or otherwise making them available to any retail investor in the EEA may be unlawful under the EU PRIIPs Regulation.]

[**PROHIBITION OF SALES TO UK RETAIL INVESTORS** – [Other than with respect to offers of the [Warrants/Exercisable Certificates] in the United Kingdom for which a UK PRIIPs KID is being prepared] [during the period[s] [●]-[●] (repeat periods as necessary),] [T]/[t]he [Warrants/Exercisable Certificates] are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom ("**UK**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (as amended, the "**EUWA**"); (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (as amended, the "**FSMA**") and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA; or (iii) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA (the "**UK Prospectus Regulation**"). Consequently[, save as provided above,] no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the [Warrants/Exercisable Certificates] or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the [Warrants/Exercisable Certificates] or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.]

The Base Listing Particulars referred to below (as completed by this Pricing Supplement) has been prepared on the basis that any offer of [Warrants/Exercisable Certificates] in (i) any Member State of the European Economic Area will be made pursuant to an exemption under the EU Prospectus Regulation from the requirement to publish a prospectus for offers of the [Warrants/Exercisable Certificates] and (ii) the United Kingdom ("**UK**") will be made pursuant to an exemption under the UK Prospectus Regulation from the requirement to publish a prospectus for offers of the [Warrants/Exercisable Certificates]. Accordingly and subject as provided above, any person making or intending to make an offer in that Member State or the UK of [Warrants/Exercisable Certificates] may only do so in circumstances in which no obligation arises for the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the EU Prospectus Regulation or section 85 of the Financial Services and Markets Act (as amended, the "**FSMA**"), as applicable, or supplement a prospectus pursuant to Article 23 of the EU Prospectus Regulation or UK Prospectus Regulation, as applicable, in each case, in relation to such offer. None of the Issuer[, the CGMFL Guarantor] and any Dealer has authorised, nor do they authorise, the making of any offer of the [Warrants/Exercisable Certificates] in any other circumstances.

For the purposes of the above paragraph, the expression "**EU Prospectus Regulation**" means Regulation (EU) 2017/1127 and "UK Prospectus Regulation" means Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 (as amended).
